

Sale Name: ANNUAL SPRING BIG BOY TOY AUCTION- APRIL 29TH @ 9AM EST
LOT 323 - 1955 CHEVROLET 210 VIN: VBV55S226028 2 DOOR SEDAN

Description

In the automotive world, few vehicles are more instantly recognizable as the Chevy Tri-Five body style. However, for many, the engines that came with some of the models under this umbrella, like the 210, were built with underpowered engines. Restomodding has stepped in to 'correct' this complaint, as seen with cars like this exceptional LS1-powered 1955 Chevy 210. Underneath the striking two-toned Maroon over Beige exterior lurks a modern 5.7-liter power plant that was built for the C5 Corvettes. Backing the engine is an automatic transmission, and an aftermarket a/c will keep you cool while you heat up the pavement. It was the subject of a frame-off rotisserie restoration, and has a California frame, power disc brakes, custom leather interior, Bluetooth radio, Classic Instruments clock, Billet Specialties hinges, and more. Only 8,477 miles have been put on it since the restoration, and this show winner can be yours!

Quantity: 1
